

Domestic DIY Check Hidden leaks

- Turn off all taps in the house
- Read the Water Meter (if no water meter, observe level in water tank)
- Wait for 2 hours
- Read the Water Meter (level in water tank)
- If reading/water level don't match, there is leakage

Leak Detection

Leaking Tap

Leaking Pipe

Leak Detection by Hearing

Leak detection in flush

- Sometimes Flush tank leaks silently and not detectable.
- Add any colouring power (turmeric / chilli powder) in the flush tank, observe after 30 minutes.
- Detect the leak by finding traces of same colour around flush system.
