

## Water Requirement for Agriculture

Although the Agriculture sector includes Animal Husbandry, Dairy and Fisheries, the major water demand is for Irrigation. In fact, Irrigation water demand outstrips other sectors demand by huge margin in the developing nations like India.

## Factors determining Irrigation water demand

Factors	Water Requirement	
	More Water	Less Water
Type of Crop	 <b>Rice</b>	 <b>Bajra</b>
Type of Soil	 <b>Laterite Soil</b>	 <b>Alluvial Soil</b>

Climatic Factors	 <b>Hot and dry season</b>	 <b>Rainy Season</b>
Type of Irrigation	 <b>Flood Irrigation</b>	 <b>Drip Irrigation</b>
Topography	 <b>High slope farms</b>	 <b>Farms with flat terrain</b>
