

## Current Scenario

### PREVALENT MARKET PRICES OF WATER

#### **BOTTLED WATER**

Prices for bottled water are set in the market. Retail prices in India vary widely between brands, bottle sizes (500 ml to 20 liters) and place of sale (supermarket, restaurant etc.). They range from Rs. 10 to Rs. 125 per liter.

## TANKER TRUCK

Prices for water sold by tanker trucks in bulk, which is common in cities/ towns/ villages of India for households without access to adequate piped water supply, are set in the market. Prices for trucked water vary about Rs. 500 - 750 for each 7,000 liter tanker.

## UTILITY TARIFFS

Prices for piped water supply provided by utilities, be they publicly or privately managed, are generally determined administratively. In Delhi, for 31,000 liter water per month, the monthly bill is about Rs. 300.

### IRRIGATION

Prices for irrigation water that is being provided by a public agency are also typically determined administratively, usually using a flat rate, since metering is not common in agriculture in India.

### Two pricing systems exist for irrigation:

1. Area-based tariffs, sometimes differentiated by type of crop
2. Volumetric pricing, which requires measurement

### GROUND WATER ABSTRACTION

Permission to abstract ground water in areas notified by CGWB, through any energized means is accorded for the purpose of drinking water and domestic requirement. No fee is levied on such ground water abstraction.
